One of the items on the agenda for your segment of the meeting is “Confirm agreed upon range of sub-alternatives and identification of preferred alternative.”

We are a long way from agreeing on the range of sub-alternatives. This is especially true given the newly stated intention to use this EIS Supplement for the 404 permitting, which would mean that they need to include the “LEDPA” in the alternatives. I would probably suggest that any EPA concurrence with the range of alternatives would have to wait until we have our Corps/EPA discussion of how to do 404 permits in this increasingly complex situation.

Subject: FW: BDCP Principals Meeting Agenda

As Tom knows from the update we did on Thursday for the EPA team members who were available, Laura King Moon invited me and Kathleen to call into the 12:00-2:00 (now 12:00-1:30) portion of the BDCP principals meeting tomorrow. Please don't circulate this further, but we will report out whatever we can.

Jane Diamond

Water Director, EPA Region 9
